

NHSMUN-ATL

November **6-8** 2026

Atlanta, Georgia

Welcome to NHSMUN-ATL!

A new conference for high school students

NHSMUN-ATL's mission is to take the world-class experience of NHSMUN and bring it to the Atlanta area. Students can expect this conference to offer the same rigorous debate, rich topics, and incredible new friendships. The leadership team of NHSMUN is so excited to bring this experience to the students living in one of the largest and most interesting US cities.

Realism and Accuracy:

We believe that one of the core educational responsibilities of MUN conferences is to provide authentic simulations that will reflect real global challenges.

Engaging Topics:

The most interesting and complex debates come from the real world. Therefore, our committee topics are drawn directly from the agenda of the United Nations. Our delegates tackle the same issues that diplomats are discussing today, making debate serious, current, and engaging.

Expert Staff:

Our staff members undergo a rigorous training process to provide the best conference experience possible. Our Directors and Assistant Directors read every position paper submitted and provide thoughtful comments on those submitted by the feedback deadline.

Empowering Participation:

The UN relies on the voices of all of its member states to create resolutions most likely to make a meaningful impact on the world. That is our philosophy at NHSMUN-ATL too. Our staff and procedures focus on making every voice in the committee heard.

The structure you trust.

The challenge you expect. A brand-new location.

This conference is proudly organized by the **International Model United Nations Association**, a not-for-profit, 501(c)(3) educational organization formally associated with the United Nations Department of Global Communications. IMUNA is dedicated to global issues education through simulation, and for more than 50 years, its conferences have provided high-quality academic diplomacy experiences for students around the world. This conference will reflect the same standards of rigor, preparation, and professionalism that **define the National High School Model United Nations Conference** in New York City.

In Atlanta, delegates can expect the academic challenge and structured debate associated with NHSMUN-style conferences, with well-trained dais teams and consistent procedural expectations across committees. The conference will simulate a diverse range of multilateral bodies and crisis environments, including:

1

Commission on the Status of Women (CSW)

2

Disarmament and International Security Committee (DISEC)

3

Social, Humanitarian, and Cultural Committee (SOCHUM)

4

United Nations Environment Assembly (UNEA)

5

Crisis Simulation

Each committee is designed to balance accessibility with intellectual challenge, ensuring meaningful participation for both experienced and emerging delegates while maintaining the academic depth associated with IMUNA programming.

Why Atlanta?

Atlanta is a dynamic global city and an ideal location for a Model United Nations conference. Known for its leadership in civil rights, international business, and global health, the city is home to institutions like the Centers for Disease Control and Prevention and major global companies such as Delta and The Coca-Cola Company. Delegates can explore world-class attractions like the Georgia Aquarium and experience the energy of one of the fastest-growing cities in the United States.

The Emory Experience

The conference will take place on the campus of Emory University, a leading research university in the heart of Atlanta. Model UN at Emory University feels like a real college experience. Delegates will walk across a leafy campus, chat with Emory campus ambassadors, sit in university classrooms, and get a glimpse of what college life actually feels like.

Fees & Accommodations

For the first time, NHSMUN will be offering a reduced fee for Title I schools, reflecting our commitment to accessibility and equity. Below, you can find the chart of our fee structure:

We are negotiating discounted hotel accommodations at several sites for groups that need it. The conference will release more information about these rates when they are confirmed.

High-Level Conference Schedule

Day
1

Conference (Friday, November 6)
